2017-07-09	2750	History	<b>Knights</b>		Men In Iron		01	1	A fierce warrior-class emerges in medieval Europe around 1,000 years ago: the knights. In reality, it's a world of freezing castles and violent battles, where joust competitions, fair maidens and the crusades are the latest fads. Manners and gallantry are everything and their abuse can end in deadly duels. This elegant and exciting 3-part series evokes the time of the knights in a unique and intimate rollercoaster ride of individual lives set in the wider context of medieval Europe. Their stories are told in gripping reenactments, illustrated by stunning CGI and explored with engaging documentary sequences.	GERMANY	German-100	2014	RPT	PG	v		Y

Siblings talk about growing up with a complex mix of emotions: love, loyalty, care and compassion for their disabled sibling, but also shame, anger, guilt, resentment and grief. Many say they didn't complain as they were the 'lucky ones'. Mum and dad had enough on their plate, so they worked hard to be the good child amid the chaos. What's the price of suppressing feelings and desires so young? Siblings of disabled people report high rates of anxiety and depression in their adolescent years, but as adults they also tend to be high academic achievers, responsible and compassionate. 2017-07-12	2030	History	<b>Alcatraz: Escaping The Rock</b>	Premiere	Alcatraz: Escaping The Rock		0	In 1962, bank robbers Frank Morris and brothers Clarence and John Anglin escaped the confines of the prison walls at Alcatraz and set off on the frigid waters of the San Francisco Bay in a homemade raft. It's unknown if they made it to land. Dutch scientists use their work on flood risk assessment and innovative 3D technology mapping tides to prove that they could've successfully escaped, but only if their timing was perfect and specific factors were in place. Recreations and archival material, modern science and reconstructed rafts to sort fact from fiction, establishes for the very first time that escape was entirely possible. Following in her footsteps, revisit the history of wax portraiture and popular entertainment in full bloom in the early 19th century when Great Britain was undergoing an unprecedented industrial and economic boom. Marie Tussaud was a talented wax artist, as well as an entrepreneur, but also a marketing pioneer. She toured Ireland, Scotland and England with a travelling museum, before ending her life in London at the head of a colossal empire, the Madame Tussaud's wax museum. How did a woman survive such dangerous times, and rise to the status of National Treasure in a country whose language she could barely master?	FRANCE	English-100	2016						Y
