Lovecraft's sepulchral 1922 pulp horror story, arguably the first such tale to ever consider scientifically affected corpses as zombies, *Re-Animator* is Stuart Gordon's cult classic trip into the realm of the living dead. Conducting clandestine experiments within the morgue at Miskatonic University, scientist Herbert West reveals to fellow graduate student Dan Cain his groundbreaking work concerning the re-animation of fresh corpses. West's secret reagent is a powerful injection with the capacity to give life where there is none - destined to capture the imagination of the entire scientific community. However, between life and death is a thin thread of understanding and when obsession gets the better of West, there is no stopping his wicked ways - dead or alive!
