It's a picturesque journey set against the backdrop of America's ugly war in South East Asia and at a time when the Middle East rallied together to impose an oil crisis on the West. Of course, this made everyone rethink their travel plans, particularly if you had a gas guzzling muscle car but the fun did not stop here. The decade was also a time when luxury air travel was the paragon of stylish living and when the family vacation became a rite of passage. While some young Americans drove their super-charged V8 engines, others strapped on a rucksack following the Kerouacian dream to limitless horizons of freedom found whilst exploring the vastness of their country.
