2021-02-04	2800	History	<b>Inside North Korea's Dynasty</b>	Kingdom Of The Kims	01	1	For decades, Korea and its people laboured under Japanese imperialist rule. But in 1912, in a small town outside Pyongyang, a child is born - Kim Il Sung, coinciding with an omen of imperialism's doom. This is the story of how an unknown guerrilla fighter rises to power, takes complete control of his country and makes himself a god in the eyes of his people. Recounted through firsthand testimony and expertly curated archive, this episode explores Sung's early days in power, how he starts the Korean War, establishes gulags for anyone who could be 'hostile', tries to assassinate the President of South Korea, and plays a dangerous game of brinkmanship with the United States, including capturing a U.S. Navy ship - the USS Pueblo - taking American sailors prisoner, and the infamous tree-cutting axe murders in the Demilitarized Zone. Many of its most impressive vestiges can be found in the south of France, in places like Nîmes (originally named Nemausus, after the son of Hercules). Once an outpost of nearly 25,000 inhabitants - a huge population in the 2nd century - today the city and its surroundings are a true open-air Roman museum. The large amphitheatre that is still in use, the amazingly preserved Maison Carré, and the Temple of Diane are just a few of the time-honoured monuments we'll explore in this fascinating, unprecedented documentary revealing the mysteries behind their construction.
