2019-04-14	1835	Health, Science & Technology	Abandoned Engineering	Quest For Power	01	5	We tap into the history of electricity to find out if a giant structure rusting away in the contaminated zone around Grenoble could have started World War III. We explore the remains of Nicola Tesla's revolutionary power generator on Long Island to ask if his plans to provide limitless power for the world would have worked. The ornate control room at the heart of Hungary's oldest power station reveals the belief that electricity would create a new and better world. We ask why a brilliant mathematician has been forgotten even though the structural design he invented is being used to create some of the world's greatest buildings.
