2020-07-09	2255	Health, Science & Technology	The Truth About Your Health	Detox Debunked	01	1	Health law professor, writer and debunker-extraordinaire, Timothy Caulfield, dives deep into the science, and the social issues behind today's cutting-edge health trends in order to separate the truly good advice from the excess of high-priced placebos. What does it take to flush all the bad stuff from your body after a week-long bender? Or after several years of eating junk food? Detoxing isn't actually a thing, but it's a fixation of the Western world. Stemming from the guilty pleasures of overindulgence and under-exercising, a belief has emerged that we must regularly rid our bodies of toxins via detoxifying diets, fasts, technologies, and more. The evidence - or the lack thereof - behind this popular trend is uncovered. The science, the risks, and the underlying beliefs and fears are explored.	CANADA	English-100	2017	RPT	PG	a	Y

In June 2016, 52 percent of the UK population voted to leave the EU, a historic vote which split the country in two and fuelled the ongoing debate about race, religion and immigration. He meets members of the infamous English Defence League (EDL), an anti-Islamic, anti-immigrant hate group who are known in the media for their alcohol fuelled get-togethers.
