2021-08-22	1200	Culture & Society	Date My Race	Date My Race		0	Date My Race explores the role race plays in finding love, and reveals Australia's surprising patterns when it comes to online dating and racial preferences. It's a personal theme for 30-year-old African-Australian journalist and host Santilla Chingaipe, who is on the hunt for love. With a smorgasboard of potential mates a swipe away, she is having little luck with online dating, and wonders if it is the colour of her skin that is sabotaging her chances. This playful and surprising look at modern dating will challenge Australians to think about what drives their own romantic attraction and connection, asking the question: when looking for love, does having racial preferences amount to racism? 2021-08-28	1650	Health, Science & Technology	Seconds From Disaster		Bismarck, The	05	1	The Royal Navy's battle with the German battleship Bismarck is a pivotal point in the Second World War. If Bismarck succeeded in attacking the British convoy system, then Britain would be forced to surrender and there would have been no bridgehead for an Anglo-American liberation of Europe. In losing Bismarck the Germans lost their opportunity to defeat Britain and turn the tide of war. Naval historian Andrew Lambert has studied this famous sea battle and sheds new light on the reasons for Bismarck's fate. He believes the sinking follows a catalogue of errors on both sides but ultimately he finds fault with the core German war strategy.	USA	English-100	2008	RPT	PG	a	Y
2021-08-28	1745	Health, Science & Technology	Seconds From Disaster		Mountain Tsunami	05	2	In 1960, construction of Europe's tallest dam is completed in the Vajont Valley in Northern Italy - the jewel in the crown of an ambitious hydro-electric generation scheme. But as the new reservoir fills, a vast section of mountainside is dislodged and creeps toward the lake. The power company know the landslide has the potential to cause a devastating tsunami if it hits the water at speed, so they develop a plan to ease the landslide down by adjusting the level of the lake. For three years there are no problems, but in October 1963, the landslide suddenly accelerates - and slams into the reservoir as fast as a Formula One car - creating a tsunami 200 meters high which overtops the dam and swamps the valley below - killing more than 2000 people.
