2021-04-21	2525	Culture & Society	Boy Racer		Boy Racer		0	Since the trend of teenagers modifying their affordable cars with go-faster stripes, neon under-lights and dump valves really took off in the 90s, the media and public have been wary of boy racers. The government have attempted to force them out of town centres with CCTV, the cops spend their nights hunting them in unmarked cars and ASBOs have resulted in countless cherished Fiat Puntos and SR Novas being seized. Understandably, this has driven boy racers to abandon the bright lights for the industrial areas, country lanes and car parks where they can blare happy hardcore, jungle and bassline and pull off handbrake turns to their hearts' content, or at least until the police show up.	UNITED KINGDOM	English-100	2017	RPT	MA	a l s	Y

2021-04-23	2505	Biography	England Is Mine				0	The 17-year-old Steven Patrick Morrissey is a young dreamer amid the tough, macho world of 1970s northern England. When his parents' relationship begins to deteriorate, Steven blocks out family life and spends most of his time writing savage music letters to the NME. But what Steven really wants is to become the frontman of a band. Held back by shyness he is paralysed by inaction. Steven's friend Anji declares that him the world won't just come to him. Steven has to grow up fast when his father leaves the family. He takes a job at the Inland Revenue, a role for which his delicate hands are ill-suited. He lives out the office nightmare he always feared: a world of petty internal politics, micro?management and water cooler gossip.	UNITED KINGDOM	English-100	2017	RPT	MA	l

2021-04-24	1930	Health, Science & Technology	Impossible Engineering	New Episode	Impossible Engineering Series 1 Ep 3	01	3	Soaring 632m into the sky, the Shanghai Tower is the second tallest building in the world. This monument to sheer engineering audacity is constructed within one of the most seismically active corners of the globe, and is built to withstand damaging winds of typhoon proportion. Charting the revolutionary designs and ideas of the great innovators of the past, we discover how ambitious engineers built a 850,000 tonne skyscraper in one of the world's greatest megacities - a city that is slowly sinking into the soft soil below.
